

Rated as one of the easiest to use products, our ABSA compliant Shift Log captures daily events and shares that information across shifts, and across the company.

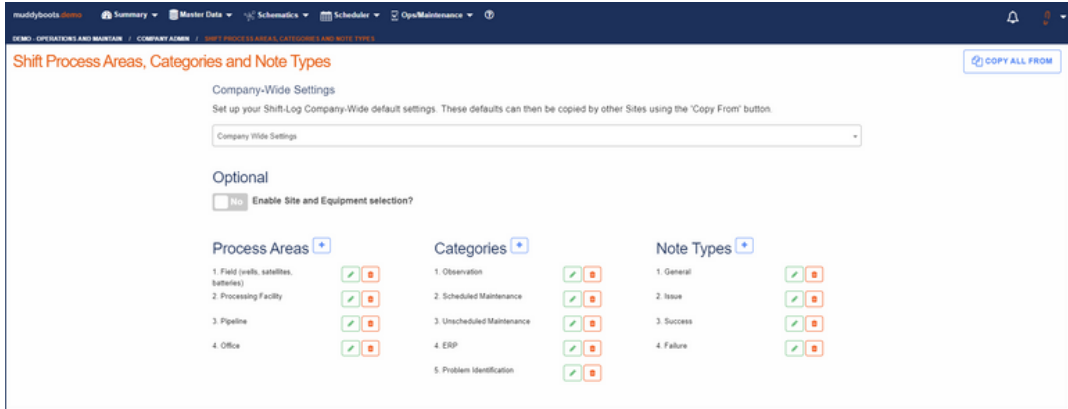

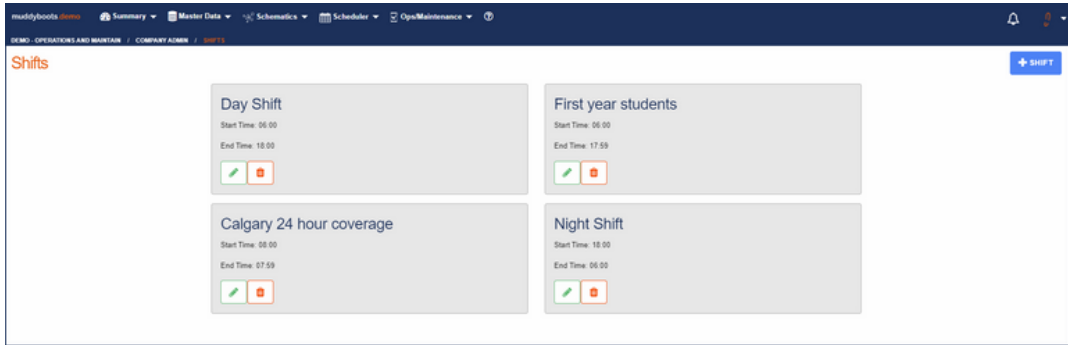

100% of our customers who have trialed our Shift Log have signed on to use it permanently.

Software Highlights:

- ABSA compliant - entries cannot be edited or deleted.
• Communicate with the following shift.
• Assign team leads and engineers to each shift. Time stamp every entry.
• Reserve review and close rights for individuals responsible for the shift.
• Data is searchable, exportable, and viewable by all in the company.
• Retain historical records with no limit to storage capacity.
• Save time by having all your data easily accessible from a single login.
• Know what is going on from the field or the head office.
• Access Muddy Boots from your phone, tablet, or desktop.

Muddy Boots can tailor the software to fit your operational needs with:

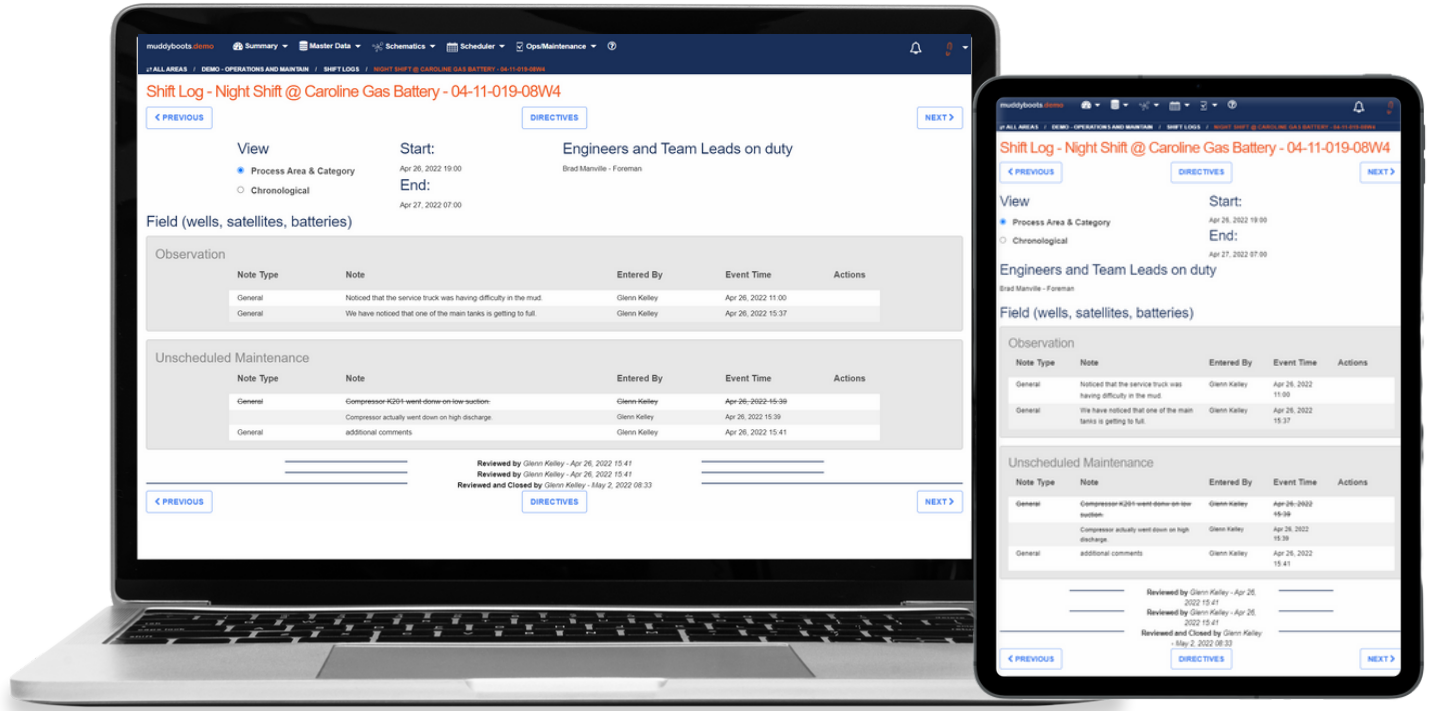

- Customizable shift names, times, site selections, and shift directives.
• Customizable drop-down selections for Process Area, Categories and Note Types.

Schedule a demo today to see how Muddy Boots can help bring efficiencies to your operation.
